GlobeNewswire AB ("Notified")	Sven Baltrusch	+49 (0) 699 7533 2004

As of: October 2024

The Exchange Reporting System (ERS) supports issuers of Prime Standard, Scale, Prime Standard for Corporate Bonds, Scale for Corporate Bonds and Basic Board in view of the fulfillment of their follow-up obligations arising from admission, inclusion and participation respectively (e.g. the submission of annual financial statements, annual reports and management reports, corporate calendars, company profiles, company key figures and ratings to Deutsche Börse). The data submitted via ERS are disclosed through Deutsche Börse's website for private investors (boerse-frankfurt.de) and made available at very short notice.

ERS is also available to General Standard companies. In system terms ERS offers an open interface; the issuer can deliver either directly or through a service provider to the interface.
